OVERLABS

SIMPLIFY TO AMPLIFY

OVERLABS is a Brazil-based company specializing in consulting, services, and the development of next-generation software and applications, with plans to expand across Latin America.

Its solutions include both external and in-house consulting, tailored to each client's specific needs. The company's services focus on reducing operational costs and ensuring full freedom in the choice of tools and providers.

In addition, its open-source solutions give clients complete control over their systems, without the need to rely on additional resources.

Born in response to the disruption brought by digitalization, generative artificial intelligence, and emerging technologies — in a context where clients demand greater personalization and empathy from their product and service providers.

We deliver transformational outsourcing services focused on end-to-end Customer Experience processes, leveraging advanced digital and Generative AI solutions to personalize customer interactions and optimize business costs.

SKX

Fintech developed within the SKY ecosystem to transform how companies and entrepreneurs manage their finances.

Born fully digital, SKX offers an integrated experience of virtual wallets, payments, and working capital solutions.

While initially focused on SKY partners, the platform will soon be available to other SMEs in Brazil, many of which currently face challenges accessing credit and essential financial services.

Backed by the strong track record built with our partners, SKX enters the market with a unique competitive advantage — combining security, accessibility, and convenience to support businesses at every stage of their growth.
